This problem cause by the nigeria government. they are the cause because if they crate a job for the graduated students this will never be in this way...
So i blame them for all the problems in Nigeria and the politicians also in the race with them .
everyone should pray so that you won't be a victim to them.

This is what our government spread across Nigeria,
Because we hardly seen things like this years ago,

But since our politicians as well joined this ritualistic ways to install themselves,

Then the ordinary Nigerians sees it as away to survive,
As we can recalled that numbers of politicians has been caught with this criminal act,
But never been brought to justice.
